Prestige F 5.7, a model unveiled at the 2025 Cannes Yacht Show, immediately captivated international yachting experts, winning the prestigious Yacht World Trophy for "Best Layout."

The heart of the yacht is its unique two-cabin concept, where the second cabin is every bit as comfortable as the master cabin. Each cabin is a private ensuite with its own separate ensuite, setting a new standard for equality and hospitality onboard.

The finishes are truly groundbreaking. A wide selection is available, from exquisite natural stone to exclusive designer panels. Every interior detail exudes impeccable taste and the highest quality of craftsmanship.

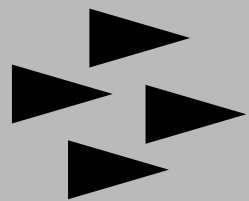

The elimination of the second entrance to the forward cockpit creates an incredibly spacious and bright saloon. And in the cockpit, comfortable sofas, positioned opposite each other, provide the perfect, intimate atmosphere for socializing and relaxation.

Thanks to the highest level of automation and minimal manual labor, the Prestige hull is renowned for its impeccable geometry, outstanding seaworthiness, and phenomenal strength. The manufacturer confirms its confidence in the design by providing additional documentation for the hull.
