

PRESTIGE M7

PRESTIGE M7

OVERVIEW

The Prestige M7 is a motor catamaran that combines the space of a villa, the stability of a multihull, and the efficiency of modern engineering.

Its key feature is its catamaran architecture, which offers a fundamentally different level of comfort compared to classic yachts. CAT construction offers up to 200 square meters of usable space, comparable to 70-75-foot yachts, while operating more efficiently.

NON-step concept is implemented on board: panoramic glazing, a single saloon with access to the cockpit, a full-size flybridge, and private relaxation areas. The space feels like a modern waterfront residence.

Its key advantage is stability. Minimal pitching, both during transit and at anchor, ensures a high level of comfort and safety. Efficiency:

- 2 Volvo D8-550 engines
- Cruising speed of 17 knots
- Maximum speed up to 20–22 knots
- Range up to 1,300 nautical miles

Optimized hulls reduce fuel consumption and allow for long-distance cruising.

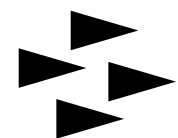

The layout offers up to 4 cabins for 8 guests, including a spacious master suite with panoramic views, as well as separate crew areas.

The interiors are finished in premium materials with an emphasis on light, texture, and comfort.

Key benefits:

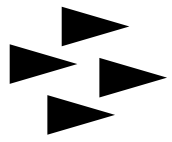

- Maximum space and privacy
- Stability and safety
- Fuel efficiency over distance
- Villa-like comfort

While a classic yacht requires a compromise between space and efficiency, the Prestige M7 sets a new standard – unlimited living on the water.

TECHNICAL SPECIFICATIONS

Year of release	2026	Boiler capacity	2 x 60 l
Overall length	17.94 m	Cabins	4 + 1
Body length	17.7 m	Category	A12 / B14 / C16 / D20
Width	7.54 m	Engine	VOLVO 2 x D8 - 550 HP - V-Drive
Draft	1.55 m	Maximum speed	20 knots
Dry weight	39,499 kg	Cruising speed	17 knots
Fuel reserve	2,900 l	Designers/Architects	Garroni Design - Mare Lombard Yacht Design
Water supply	760 l
