PERSHING
GTX80

— The Show Flows On

GTX80

#2

Pershing GTX80

Enjoyment and fun reach new heights. The interiors and exteriors blend into each other, breaking down barriers. Welcome to a new dimension of comfort, where the cruising experience amplifies every emotion.

Offers a panoramic 360-degree view from the helm station, with a sunroof that opens to provide natural ventilation, for a peerless cruising experience.

A sumptuous dinette forward becomes a spacious sun pad, designed for moments of luxury in total privacy. Adaptable to different configurations: both outdoor areas can be shaded from the sun by awnings.

At 23 square metres, it's 60% larger than the category average. Dominating the scene are a spacious sun pad aft, a dinette with two sofas and a dining table.

The defining feature of the GTX Series. A space in the stern that offers an uninterrupted and infinite connection with the sea.

Volvo dynamic positioning system

Fiercely audacious.

Pershing GTX80 takes the synergy between maximum interior space usage and incredible performance to the next level, delivering ever higher standards of on-board liveability.

The owner has the option of installing the carbon fibre and fabric T-top, with its appealing, light-touch design, which shelters the sundeck for unparalleled comfort.

Every setting is designed to intensify the flow of emotions experienced on board this model and accentuate its personality, creating a seamless connection between indoors and outdoors, between boat and sea. The sophisticated entrance, with electric windows and two sliding panels, perfects this spatial harmony.

— A flow of emotions.

The design of the boldly detailed interiors is inspired by the dynamic cruising style and the pace of life on board, creating a new dimension in which luxury and the 'gran turismo' experience co-exist.

Bespoke haven.
